## PROJECT HISTORY

### Food Vending Machine

This project mainly used C# language for a better solution for a vending machine as well this one is user-friendly, and as a result, customers can easily buy food.

**Clarification:** [shishir1290/Food-Vending-Machine](#)

### E--commerce site

In this project mainly used HTML, PHP, CSS, JS, and MySQL language for a better solution for an e-commerce site as well this one is user-friendly, and as a result, customers can easily use this site. On this web site customer can create their account, search for products, and buy products easily.

**Clarification:** [shishir1290/Gore-Gore-an-ecommerce-site](#)

### Computer Graphics

In this project mainly used C++ language for a better solution for designing a city view as well this one is user-friendly, and as a result, users can easily use this. This project shows a city where cars are running, rain falls, and day and night.

**Clarification:** [shishir1290/Designing-A-City-View](#)

### Live Project

In this project mainly used HTML, PHP, CSS, JS, and MySQL language for a better solution for an e-commerce site as well this one is user-friendly, and as a result, customers can easily use this site. On this website, customer can create their account, search for products, and buy products easily. This project is free hosted by ooowebhost.com. Anyone show live this website for free. But there is no SSL certification.

**Clarification:** [GHORE GHORE An E-Commerce site](#)
